

# Environmental Protection

---

California Environmental Protection Agency programs restore and protect environmental quality, and protect public health. The Secretary coordinates the state's environmental regulatory programs and ensures fair and consistent enforcement of environmental law, which safeguards the state's residents and promotes the state's economic vitality.

## 3900 Air Resources Board

The Air Resources Board has primary responsibility for protecting air quality in California. This responsibility includes establishing ambient air quality standards for specific pollutants, administering air pollution research studies, evaluating standards adopted by the U.S. Environmental Protection Agency and developing and implementing plans to attain and maintain these standards. These plans include emission limitations for vehicular and other mobile sources and industrial sources established by the Board and local air pollution control districts. The Air Resources Board also has the responsibility, in coordination with the Secretary for Environmental Protection, to develop measures to reduce greenhouse gas emissions to 1990 levels by 2020, pursuant to Chapter 488, Statutes of 2006 (AB 32).

## 3900 Air Resources Board - Continued

### PROGRAM DESCRIPTIONS

#### 15 - MOBILE SOURCE

The Mobile Source Program works to improve air quality by reducing emissions from internal combustion engines as follows:

- Develop, implement and enforce laws and regulations limiting emissions from new and in-use vehicles and other mobile sources and assess the effectiveness of established procedures.
- Develop testing and evaluation procedures for vehicles, engines, emission control components, fuel additives and test equipment to ensure that emission standards are met.
- Conduct information and training seminars for vehicle dealers, mechanics, inspectors and members of the public on vehicle emissions and resulting air pollution.

#### 25 - STATIONARY SOURCE

The Stationary Source Program works with air pollution control districts and the business and scientific communities to reduce emissions from stationary sources to comply with state and federal laws as follows:

- Develop measures for reducing emissions from stationary and other sources as required by the California Clean Air Act and work with local air pollution control districts to achieve and maintain state and federal ambient air quality standards.
- Identify substances that are toxic air contaminants and develop measures to control their emissions.
- Assist industries wishing to locate or expand in California and provide comments to lead agencies and districts on applications for permits to construct or modify facilities that are major sources of air pollution.

#### 32 - CLIMATE CHANGE

The Climate Change Program works to reduce greenhouse gas emissions to 1990 levels by 2020, and then an 80 percent reduction below 1990 levels by 2050, as follows:

- Develop measures for reducing greenhouse gas emissions, including from mobile and stationary sources, as required by the California Global Warming Solutions Act of 2006 (AB 32, Chapter 488, Statutes of 2006).
- Develop, implement, and enforce laws and regulations to achieve the required greenhouse gas emission reductions and other requirements of AB 32.

#### 35 - SUBVENTION

The Air Resources Board provides subventions to local air pollution control districts in order to encourage and provide support for effective district programs. The state's 35 local air pollution control districts have the primary responsibility for controlling stationary sources of air pollution in California.

### 3930 Department of Pesticide Regulation

The Department of Pesticide Regulation protects public health and the environment by regulating all aspects of the sale and use of pesticides and by promoting reduced-risk pest management strategies. The Department ensures compliance with pesticide laws and regulations through its oversight of County Agricultural Commissioners, who enforce pesticide laws and regulations at the local level.

Effective July 1, 2013, pursuant to the Governor's Reorganization Plan No. 2 of 2012, the Structural Pesticide Control Board is merging with the Department of Consumer Affairs Regulatory Boards (Organization Code 1110), which is moving to the new Business, Consumer Services, and Housing Agency. See Major Program Changes below.

#### LEGAL CITATIONS AND AUTHORITY

##### PROGRAM AUTHORITY

10-Pesticide Programs:

Food and Agricultural Code, Divisions 2, 6 and 7.

#### MAJOR PROGRAM CHANGES

- The budget includes a reduction of \$4,661,000 special funds and 29.9 positions to reflect the July 1, 2013, movement of Structural Pest Control Board functions from the Department of Pesticide Regulation to the Department of Consumer Affairs Regulatory Boards pursuant to the Governor's Reorganization Plan No. 2 of 2012. The reduction is offset by a corresponding increase within the Department of Consumer Affairs.
- The budget includes \$788,000 Department of Pesticide Regulation Fund and 5.0 positions to review pesticide adverse-effect reports, evaluate and analyze fish and wildlife data, and develop, implement, and evaluate pesticide application adverse impact mitigation efforts.

#### PROGRAM DESCRIPTIONS

##### 10 - PESTICIDE PROGRAMS

The Pesticide Program protects California residents and the environment from adverse pesticide impacts with particular emphasis on the protection of children, vulnerable populations, and communities. Specific activities include:

- Scientific evaluation of whether to register pesticide products for sale or use in California.
- Assessing the human health risks from pesticides.
- Examination, licensing, and certification of individuals and businesses that recommend, perform, or supervise pest control.
- Collecting pesticide use data and evaluating use trends.
- Monitoring pesticide residues in fresh produce, air, and water, as well as occupational settings.
- Protecting surface and ground water from pesticide movement through evaluation, prevention, and mitigation.
- Protecting non-target wildlife from pesticide risks.
- Reevaluating and mitigating human health and environmental hazards from pesticides.
- Overseeing local enforcement of pesticide laws and regulations by the County Agricultural Commissioners.
- Ensuring pesticide products sold in the marketplace are registered, meet state health, environmental and safety standards, and that sellers are in compliance with mill assessment responsibilities.
- Promoting the development and adoption of reduced risk pest management practices through outreach, incentives, and grants.

### PROGRAM DESCRIPTIONS

#### 10 - WATER QUALITY

This program ensures the highest possible quality of water for the state. Specific activities include:

- Formulating, adopting and updating water quality control plans and policies that set standards and provide guidance in water management decisions.
- Monitoring water quality to determine compliance with control plans, permit terms, conditions and water standards; implement the Total Maximum Daily Loads program to address pollution in the state's most seriously impaired water bodies by developing plans that allocate responsibility for reducing pollution.
- Ensuring the waters of the state are not degraded by hazardous waste spills or tank leaks, or by spills or tank leaks from solid and hazardous waste treatment, storage, and disposal facilities.
- Requiring waste dischargers, including storm water dischargers, to prevent and abate water pollution and inspect dischargers to determine compliance with requirements.
- Assisting owners and operators of underground tanks in financing the cleanup of unauthorized releases from their tanks.

#### 20 - WATER RIGHTS

\* Dollars in thousands, except in Salary Range.

### 3940 State Water Resources Control Board - Continued

This program ensures that California's water resources are put to beneficial use, while protecting prior rights, water quality and the environment. Specific activities include:

- Allocating the unappropriated waters of the state to ensure water is used in accordance with state laws.
- Maintaining a record of title of appropriative water rights initiated and maintained since 1914, including those for stockponds, livestock and small irrigation and domestic use ponds.
- Maintaining records of water diversion and use under riparian and pre-1914 rights and groundwater extractions in four southern counties.
- Enforcing permit and license terms and conditions, abate illegal diversions, protect public trust resources, and prevent waste or unreasonable use under all rights.
- Assisting the courts in determining existing rights to surface water throughout the state through court reference and statutory adjudication proceedings, and in determining rights to groundwater through the groundwater adjudication process.

#### 30 - ADMINISTRATION

This program includes management, program and policy direction, budgeting, accounting, human resources, data processing, legislation and public information for department programs, and coordinating with the nine Regional Water Quality Control Boards.

**3960 Department of Toxic Substances Control**

The Department of Toxic Substances Control protects the people of California and the environment from the harmful effects of toxic substances by restoring contaminated resources, enforcement, regulation, and pollution prevention.

Department programs drive the need for infrastructure investment. Thus, each department has a related capital outlay program to support this need. For the specifics on the Department of Toxic Substances Control's Capital Outlay Program, see "Infrastructure Overview."

### PROGRAM DESCRIPTIONS

#### 12 - SITE MITIGATION AND BROWNFIELDS REUSE

The Site Mitigation and Brownfields Reuse program implements state site cleanup laws and the federal Superfund program. The program currently oversees approximately 1,000 hazardous substance release site investigations and cleanups, and monitors long-term operations and maintenance activities at approximately 200 sites where the cleanup process is complete. Additionally, the department is responsible for ensuring compliance with the terms of 600 land use restrictions in place on properties throughout the state.

New sites are identified through surveillance and enforcement efforts, emergency response activities, examination of other previously identified potential sites, and voluntarily by public and private entities requesting departmental oversight to return the properties to productive use. These sites and projects include cleaning up federal and state superfund properties, abandoned mines, other abandoned and underutilized properties known as "brownfields," and open and closed military installations.

The program oversees environmental assessments and cleans up proposed new or expanding school sites to prevent or reduce exposing students and staff to hazardous materials. The program is also responsible for the Stringfellow Hazardous Waste Site, a former hazardous waste disposal site and federal Superfund Site.

The program works closely with other state agencies, the United States Environmental Protection Agency, and local agencies throughout the state to establish and implement viable grant and loan programs to aid in assessing and cleaning up brownfields sites.

The program works with the California Emergency Management Agency and other state agencies to assure response readiness for acts of terrorism involving the use of toxic chemicals. Additionally, the program mitigates off-highway hazardous waste spills and responds to hazardous waste contamination resulting from illegal drug laboratories.

#### 13 - HAZARDOUS WASTE MANAGEMENT

The Hazardous Waste Management program regulates the generation, storage, transportation, treatment, and disposal of hazardous waste to minimize risks to public health and the environment. The program oversees 117 authorized facilities managing hazardous waste, approximately 900 registered businesses transporting hazardous waste, over 650 facilities/generators subject to corrective actions. Additionally, the program manages approximately \$2.2 billion in financial assurance resources, and supports and oversees local agencies implementing the hazardous waste elements of the Unified Program.

The program monitors hazardous waste transfer, storage, treatment, and disposal facilities for illegal activity, including electronic manifest surveillance and monitoring registered hazardous waste transporters and enforcing hazardous waste requirement violations found through routine inspections, complaint investigations, and other focused enforcement initiatives.

\* Dollars in thousands, except in Salary Range.

## 3960 Department of Toxic Substances Control - Continued

The program also ensures compliance with hazardous waste requirements related to electronic waste and used oil.

### 19 - ADMINISTRATION

The Administration program provides accounting, budgeting, revenue collection, human resource and workforce management, data processing, performance management, business services, and other administrative support to departmental programs. Administration also supports operations in Sacramento, Clovis, Berkeley, Chatsworth, Cypress, San Diego, and El Centro including two environmental chemistry laboratories located in northern and southern California.

### 20 - POLLUTION PREVENTION AND GREEN TECHNOLOGY

The Pollution Prevention and Green Technology program provides scientific leadership in green chemistry, pollution prevention, and hazardous waste source reduction; analytical and environmental chemistry; biomonitoring; human and ecological exposure and risk assessment; industrial hygiene and workplace safety; innovative environmental technologies development; and nanotechnology issues.

The ongoing program activities include promoting reducing toxic substances use and using safer green chemistry alternatives. The program also implements the Safer Consumer Products regulations, collects information on products and the presence of toxic chemicals, encourages independent research of safer product designs and alternatives, adopting focused business sector pollution prevention strategies, supporting local green business initiatives, evaluating and deploying new environmental technologies, and develops strategies for emerging issues. The program ensures compliance with legislative mandates restricting or eliminating certain consumer products.

### 21 - STATE AS CERTIFIED UNIFIED PROGRAM AGENCY

The California Environmental Protection Agency designated the Department of Toxic Substances Control as the Certified Unified Program Agency (CUPA) in Trinity and Imperial Counties. As the CUPA, the department is responsible for implementing the six elements of the Unified Program: hazardous waste generator and onsite treatment activities; spill prevention control and countermeasure plans for owners of aboveground petroleum storage tanks; underground storage tank program; hazardous material release response plans and inventories; California Accidental Release Prevention program; and certain Uniform Fire Code requirements pertaining to hazardous material management plans and inventories.

### INFRASTRUCTURE OVERVIEW

The Department of Toxic Substances Control (DTSC) operates the state-owned Stringfellow Pre-Treatment Plant (SPTP) site in Riverside County. The SPTP includes groundwater monitoring and extraction wells and three treatment facilities used to filter and clean the contaminated groundwater. The DTSC also leases ten facilities (450,719 square feet) throughout California that include space for offices, specialized fieldwork, sample and field equipment storage, two environmental chemistry laboratories, and an information center for the SPTP site.

## 3970 Department of Resources Recycling and Recovery

Effective July 1, 2013, pursuant to the Governor's Reorganization Plan No. 2 of 2012, the Department of Resources Recycling and Recovery is moving to the California Environmental Protection Agency. The Department of Resources Recycling and Recovery was previously budgeted within Natural Resources Agency under Organization Code 3500.

The Department of Resources Recycling and Recovery protects public health and safety, and the environment through regulating solid waste facilities, including landfills, and promoting recycling of a variety of materials, including beverage containers, electronic waste, waste tires, used oil, and other materials. The Department also promotes the following waste diversion practices: (1) source reduction, (2) recycling and composting, and (3) reuse. Additional departmental activities include research, permitting, inspection, enforcement, public awareness, education, market development to promote recycling industries, and technical assistance to local agencies.

### PROGRAM DESCRIPTIONS

#### 11 - Waste Reduction and Management

The objectives of the Waste Reduction and Management Program include:

- Ensuring all nonhazardous solid waste is stored, collected, processed, and disposed in a safe and environmentally sound manner.
- Participating in development and maintenance of local solid waste management plans describing how each city and county will reduce solid waste disposed to achieve at minimum a 50 percent diversion of waste from landfills.
- Cleaning up solid waste disposal sites when the responsible party either cannot be identified or is unable or unwilling to pay for timely remediation, and where cleanup is needed to protect public health and safety, or the environment.
- Reducing the amount of waste generated and promoting composting, recycling, and use of recycled materials in manufacturing processes.
- Reducing the number of tires placed in landfills, illegally dumped, or stockpiled while promoting technologies turning waste tires into useful products.
- Reducing the amount of improperly disposed used oil and promoting used oil recycling.
- Reducing electronic waste by providing safe and convenient collection and recycling of specified electronic equipment.

#### 40 - Education and the Environment Initiative

The Education and the Environment Initiative (EEI) is a statewide effort promoting environmental education in California. Under the direction of the Department, in cooperation with the State Department of Education, and the State Board of Education, the Office of Education will develop and implement a unified education strategy for educating pupils, faculty and administrators on the importance of integrating environmental concepts and programs for elementary and secondary schools

\* Dollars in thousands, except in Salary Range.

## 3970 Department of Resources Recycling and Recovery - Continued

throughout the state. The EEI vision encourages responsible stewardship of the Earth and advances tomorrow's leaders in a changing economy, and it will positively impact the lives of students, families, schools, communities, and California as a whole like no other educational initiative currently conceived.

### 50 - Beverage Container Recycling and Litter Reduction

The Beverage Container Recycling and Litter Reduction program administers the California Beverage Container Recycling and Litter Reduction Act with a goal of achieving an 80-percent recycling rate for glass, aluminum, and plastic beverage containers sold in California. To achieve this goal, the Division of Recycling ensures: (1) the California Redemption Value (CRV) is paid by beverage distributors for each beverage sold in California; (2) consumers are refunded CRV for recycled beverage containers; (3) recycling centers are conveniently located; (4) grants are made to encourage recycling and development of markets for recycled materials; (5) strong oversight and enforcement programs are in place to protect the integrity of the Beverage Container Recycling Fund; and (6) public outreach and private partnerships are promoted.

**3980 Office of Environmental Health Hazard Assessment**

The Office of Environmental Health Hazard Assessment protects and enhances public health and the environment through objective scientific evaluation of risks posed by hazardous substances. The Office performs risk assessments for various regulatory programs under the California Environmental Protection Agency, as well as other state and local agencies, and provides these programs with the scientific tools and information upon which to base risk management decisions. Distinct programs focus on assessing health risks, including risks to children and other sensitive subpopulations, from exposure to chemicals in air, water, food, pesticides, consumer products, hazardous and municipal waste facilities, fish and shellfish, and sediments in bay and estuarine waters. The Office also evaluates community cumulative impacts from pollution.

**PROGRAM DESCRIPTIONS****10 - HEALTH RISK ASSESSMENT**

The Health Risk Assessment program provides tools forming the basis for a scientific approach to assessing both health and environmental risks across all environmental exposure sources. The program identifies chemicals with potential to cause adverse health effects, quantifies risks and recommends health-based goals and standards, develops scientific policies and guidelines for hazard identification and risk assessment, and provides medical, scientific, and public health support, consultation, and training to state regulators, local governmental agencies, and the public. The program also evaluates community cumulative impacts from pollution. This program pays particular attention to protecting the health of infants and children.
